

SEE US AT THE F.D.I.C. IN APRIL 2007

### The Laptop P.A.R.

The screenshot displays the 'The Laptop P.A.R.' software interface. At the top, it shows 'Current Time 02:20 PM' and 'Incident Clock 00:06:52'. Below this is a 'Status' section with a table of personnel assignments. To the right, there is a 'Fire Attack 1' incident info panel with a table of personnel time in and a grid of task assignments.

Name	Com	Location	Assignment	Cloc	Shif
Marquardt	E-2	1st Floor	Fire Attack 1	00:05	B
Scheuer, R	E-2	1st Floor	Fire Attack 1	00:05	B
Peterson,	E-2	1st Floor	Fire Attack 1	00:05	B
Savalle, Er	E-4	1st Floor	Fire Attack 2	00:03	B
Weishaupt	E-4	1st Floor	Fire Attack 2	00:03	B
Morrow, Ji	E-4	1st Floor	Fire Attack 2	00:03	B

Ashley, Ma	A-3	Roof	Ventilation	00:02	B
Lee, Steve	BC-2				B
Connely, Be	A-3				B
Zielinski, Ch	A-1				B

Designed for larger departments who assign the Personnel Accountability responsibility to Chief Officers (who operate in a command vehicle). The Status page is always on (visible) no matter where you are in the program. Can filter (and search) by assignment, location, company assignment, shift, etc. Perform Personnel Accountability Reports (has a user definable PAR alarm to remind your PAO to perform PAR's at specific intervals), time stamp Maydays, Activation of RIT, etc. This program is "upgradeable" to the OnSite ERT System listed below. **\$ 1149 per license (laptop not included)**

### OnSite ERT

The screenshot displays the 'OnSite ERT' software interface. It features a map on the left showing a location with 'Macomb' and 'ReaderMacomb 8' and '7' markers. The top shows 'Current Time 09:24 AM' and 'Incident Clock 00:02:54'. On the right, there is a 'Rapid Intervention' incident info panel with a table of personnel time in and a grid of task assignments.

Name	Time In
Clark, J	9:23 AM
Hagen,	9:23 AM
Nieder	9:23 AM

OnSite ERT is a rapidly deployable, completely wireless system that tracks emergency responders "automatically." By using Radio Frequency Identification (RFID) and other wireless technologies, the system tracks emergency responders through the use of "drop readers" and special ID tags. Personnel AND equipment can be tagged and subsequently tracked throughout the duration of an event. Perfect for multi-jurisdictional response and mutual-aid where Incident Commanders are not completely familiar with the personnel and/or equipment coming from other departments. Tag firefighters, EMT's, police officers, and their equipment and track them effortlessly. **Basic systems start at \$ 25,000 + tags (approx \$ 50 each)**
